(b) whether the amount of bank loans being given to the industrial sector is increasing as compared to the agricultural sector; and

(c) if so, the reasons for ignoring agricultural sector in the matter of granting loans?

**THE MINISTER OF FINANCE AND MINISTER OF COMPANY AFFAIRS (SHRI P. CHIDAMBARAM)** : (a) As per information available from Reserve Bank of India (RBI), overdues as a percentage of outstanding advances of public sector banks as on September 1994 (latest available) were as follows :

Large and medium industries	15.76%
Small Scale Industries including industrial estates	24.46%
Agriculture	24.95%

(b) On the basis of provisional data on sectoral deployment of credit, the RBI has reported that the

average annual rate of growth of bank credit to agriculture during 1980-81 to 1994-95 stood at 14.7 per cent whereas the annual rate of growth for industry (small, medium and large scale) stood at 15.9 per cent during the same period.

(c) RBI has further reported that the rate of growth of bank credit to a sector may vary depending on both the level of production of that particular sector as well as on its capacity to absorb additional credit. Since credit intensity of agriculture is different from industry, utility of comparative statistics of this kind is at best limited.

However, a number of steps have been taken to increase the flow of credit to agricultural sector which, inter alia, include :-

- (i) Within the overall target of 40 per cent to priority sector, 18 per cent of net bank credit is earmarked for agriculture. Public Sector Banks which have not achieved the agricultural lending sub-target of 18 per cent of net bank credit as on the last Friday of December, 1994, are required to make contributions to the Rural Infrastructural Development Fund equivalent to the short fall in achieving the sub-target subject to a maximum of 1.5 per cent of their net bank credit;
- (ii) Prescription of scales of finance for crop loans worked out for each district and their uniform adoption by banks;
- (iii) Disposal of loan applications upto Rs.25,000/- within a fortnight and those over Rs. 25,000/- within 8 to 9 weeks;
- (iv) Commercial banks to set up at least one specialised Agricultural Finance Branch in each State to deal with high tech agricultural loans;
- (v) Introduction of the Agricultural Credit Card for farmers with good track record to enable them to secure production credit from banks without procedural formalities each season; and
- (v) Delegation of appropriate sanctioning powers to the rural branch managers so that majority of loan applications from weaker sections are sanctioned at branch level itself.
